Subject: RE: RWO/199 Long Man A

Hi Natalie

I have no comments on the material you sent me with the email below

In the case of Dr Bannister, I think I have dealt with these points already in earlier submissions

In the case of Mr Sullivan, we disagree about the facts- what exists on the ground. I think you or someone from the authority will have to get out and have a look to decide who is right, and then consider what the significance of what you find is.
