Dear Mr Kisko

Claimed Public Rights of Way; various locations as below

Thank you for your eight letters, which I received between 4th and 15th December 2017, concerning applications you have received for amendments to the Definitive Map by the creation of rights of way, and for inviting the Society's comments. This is my reply on behalf of the Society of Sussex Wealdmen to all eight letters, which appear to concern a total of nine claimed rights of way.

This Society has no tangible evidence to offer as to the validity of any of the claims. You also requested our comments on the claims, which are set out below with my case references, your specific letter references and dates:

In the cases where we support the claims in our comments, above, this is because we are supportive of all opportunities to increase the stock of non-motor vehicle routes, especially where access to and enjoyment of the countryside would be enhanced in a safe and logical manner.

Thank you again for consulting this Society.

Yours sincerely
