Dear [REDACTED]

RE: RWO 213 Claimed Path at Barcombe Mills.

Thank you for your email concerning the claimed public right of way at Barcombe Mills and confirming that you are not a landowner on which the path would cross.

I have noted your comments and decision to oppose the proposed path and placed your views on file to be taken into account on the review of the final decision.

Regards

Stephen Kisko

Dear Stephen,

I live at Hayes Farmhouse in Barcombe Mills. Whilst I am not a landowner of the proposed modification to the route to incorporate a bridle way, my property does border part of the proposed route.

I have lived in the property for 5 years and would consider making the route a bridleway a poor decision. Since the route was tarmacked last year it sees heavy use from residents of properties on the route as well as delivery vans going to Mill Farm. To introduce horses to this route would dramatically increase the chance of serious injuries to both motorists, horses and their riders. As such I would oppose this application.

Rgds, [REDACTED]
